## **524 INTERNET ACCEPTABLE USE AND SAFETY POLICY**

### **I. PURPOSE**

The purpose of this policy is to set forth policies and guidelines for access to PiM Arts High School computer system and acceptable and safe use of the Internet, including electronic communications.

### **II. GENERAL STATEMENT OF POLICY**

In making decisions regarding student and employee access to PiM Arts High School computer system and the Internet, including electronic communications, PiM Arts High School considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to PiM Arts High School computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of PiM Arts High School computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

### **III. LIMITED EDUCATIONAL PURPOSE**

The school district is providing students and employees with access to PiM Arts High School computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of PiM Arts High School and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.

#### **IV. USE OF SYSTEM IS A PRIVILEGE**

The use of PiM Arts High School system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of PiM Arts High School system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

  - a. This paragraph does not prohibit the posting of employee contact information on school district web pages or communications between employees and other individuals when such communications are made for education-related purposes (i.e., communications with parents or other staff members related to students).
  - b. Employees creating or posting school-related web pages may include personal contact information about themselves on a webpage. However, employees may not post personal contact information or other personally identifiable information about students unless:
    - (1) such information is classified by PiM Arts High School as

- (2) such information is not classified by PiM Arts High School as directory information but written consent for release of the information to be posted has been obtained from a parent/guardian or eligible student in accordance with Policy 515.

- B. A student or employee engaging in the foregoing unacceptable uses of the Internet when off school district premises also may be in violation of this policy as well as other school district policies. Examples of such violations include, but are not limited to, situations where PiM Arts High School system is compromised or if a school district employee or student is negatively impacted. If PiM Arts High School receives a report of an unacceptable use originating from a non-school computer or resource, PiM Arts High School may investigate such reports to the best of its ability. This disclosure may serve as a defense against an allegation that the user has intentionally violated this policy. In certain rare instances, a user also may access otherwise unacceptable materials if necessary to complete an assignment and if done with the prior approval of and with appropriate guidance from the appropriate teacher or, in the case of a school district employee, the building administrator.
